

KNOW YOUR REGS

Minnesota Wing – Civil Air Patrol
Inspector General

The Inspector General provides two functions to Civil Air Patrol: Inspections and Complaints. Both of these functions are in support of the regulations of CAP and its culture of regulatory compliance. It is important that you know the regulations for what you do in CAP and it is up to you know be aware of the regs at all times. Compliance with the regs is mandatory.

INSPECTIONS

The IG inspection staff conducts subordinate unit inspections of each unit every 24 months. These inspections are non-optional. Your unit's commander will be informed in advance of your inspection. Inspections must occur in the month in which your unit is assigned.

Inspections are conducted at your unit.

The SUI Program verifies:

Reg Compliance
Program Success
Inventory
Vehicle Upkeep
Records
... and more

COMPLAINTS

You have the right to talk to an Inspector General at any time regardless of your grade or rank. You do not need to inform your commander. A conversation with the IG is private and may not be disclosed. Anyone may contact the IG; including CAP members, cadets, parents, and members of the community.

The Inspector General can help with:

Fraud, Waste, and Abuse
Cadet Protection
Harassment
Reprisal
Whistleblower
... and more

Civil Air Patrol's success is, in part, dependent upon successful adherence to the regulations. You can find CAP's regulations online at the National Website by searching for "civil air patrol regulations."

INSPECTIONS

Minnesota Wing – Civil Air Patrol
Inspector General

Subordinate Unit Inspections (SUI) are done **every two years**. Your unit is assigned an inspection date of a month and either “even” or “odd” years. If your SUI is in an even year, your inspections take place in even numbered years (2018, 2020, 2022 ..). If your unit is assigned odd years, your SUI will take place in odd numbered years (2019, 2021, 2023 ..).

You can learn about the SUI process and download the inspection worksheets at the National Website. Search for “civil air patrol sui” to find the page.

Your commander will receive advance notification of an inspection. If you are changing commanders, please be sure to communicate the inspection notice to the incoming commander. This notification will be in email.

I Need Help!

Every year at Wing Conference the IG gives a presentation on the SUI process and schedule. Your questions are welcome! Ask about an upcoming inspection, how to clear your discrepancies, and learn from others!

What about the Compliance Inspection?

Minnesota Wing’s Compliance Inspection (CI) takes place every 4 years in the beginning of May. The years the CI will occur are:
2018 2022 2026 ...
